

STOP THE BU BIOTERRORISM LAB

By signing this petition, I state that I **DO NOT WANT** a Bioterrorism Laboratory built near BU Medical Center, in the South End/Roxbury area. I support the proposed City Council Ordinance that would stop the lab by prohibiting research designated BSL4 in Boston.

In addition, I **DEMAND** that Boston University reverse its policy of secrecy, release documents about the Bioterrorism Laboratory, and begin a real discussion with the community about the Bioterrorism Laboratory and all its potential impacts.
