Together we are building healthy, sustainable communities

Alternatives for Community & Environment (ACE) is a member-led, grassroots organization working to build the power of communities of color and low-income communities in MA to eradicate environmental racism and classism, create healthy, sustainable communities, and achieve environmental justice.

OUR PROGRAMS & SERVICES

Roxbury Environmental Empowerment Project (REEP)

- Youth-led program supported by ACE that builds power in young adults across Roxbury, Dorchester and Mattapan to organize to win environmental justice campaigns.

T Riders Union

- An ACE-organized group of riders that fights for first-class MBTA transit services in Greater Boston, particularly in lower-income communities and communities of color.

Environmental Justice Legal Services (EJLS)

- Program guiding ACE’s organizational and coalition work with a robust legal framework grounded in federal and state civil rights and environmental law. EJLS also provides legal and technical assistance to allies and mobilizes legal and scientific resources to support organizing efforts throughout Boston.

Environmental Justice Assistance Network (EJAN)

- EJAN is ACE’s 20-year statewide pro bono technical assistance network responding to the legal, scientific, and technical needs of communities on the front line of environmental and energy hazards. EJAN will be revived with new partners in 2023.
Did you know

"Environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

This goal will be achieved when everyone enjoys:

- The same degree of protection from environmental and health hazards, and
- Equal access to the decision-making process to have a healthy environment in which to live, learn, and work."
